A Kansas hog-raiser, in giving his experience in feeding bogs, says that five acres of sweet paotatoes will fatten more hogs than twenty-five acres of corn. He had sixty hogs that would yield him 18,000 pounds of pork, and he estimates the cost of their feed at not more than \$26 in actual cash for labor and other expenses in his potato field He also claims that this food imparts a flavor to the meat that far surpasses that of corn for the animals.
